

Special Grants and IT Donations Report (2017)

The EIB Institute aims to promote local philanthropy by channelling support through donations of IT equipment that is no longer used by the EIB Group to non-profit organisations, local community centres or schools registered in an EU Member State.

Furthermore, the Institute managed the following special donations (details on pages 2 to 6):

2017 Special Grants	Amount in EUR	No. Beneficiary Institutions
Peru Floods and Colombia Mudslide	250 000	5
Portugal Forest Fire	500 000	1
Hurricane Irma and Maria in the Caribbean & Mexico Earthquake	250 000	8
Total special grants provided	1 000 000	

The Institute also managed the donation of 158 desktops, laptops, printers and other IT equipment to 16 schools and non-profit organisations (see page 7 for details):

2017 IT Donations	Number
Total desktop PCs	63
Total laptops	99
Other equipment	23
Total IT equipment	185
Number of schools benefiting from IT donations	6
Number of other organisations benefiting from IT donations	7
Number of countries benefiting from IT donations	13

The number of donations in 2017 was considerably lower than in past years because the Bank interrupted the replacement of staff computers to make it possible to roll out a new Image for existing computers.

The rules governing the donation of decommissioned IT equipment can be found via the following [link](#).
