

## Special Grants and IT Donations Report (2017)

The EIB Institute aims at promoting local philanthropy by channelling support through donations of IT equipment that is no longer used by the EIB Group to non-profit organisations, local community centres or schools, registered in an EU Member State.

Furthermore, the Institute managed the following special donations (details on pages 2 to 6):

2017 Special Grants	Amount in EUR	No Beneficiary Institutions
Peru Floods and Colombia Mudslide	250 000	5
Portugal Forestry Fire	500 000	1
Hurricane Irma and Maria in the Caribbean & Mexico earthquake	250 000	8
<b>Total special grants provided</b>	<b>1 000 000</b>	

The Institute also donated 185 desktops, laptops, printers and other IT equipment to 16 schools and non-profit organisations (see page 7 for details):

2017 IT Donations	Number
Total desktop PCs	63
Total laptops	99
Other equipment	23
<b>Total IT equipment</b>	<b>185</b>
Number of <b>schools</b> benefiting from IT donations	6
Other organisations	7
Number of <b>countries</b> benefiting from IT donations	13

The number of donations in 2017 was considerably lower than in past years because the Bank interrupted the replacement of staff computers to make it possible to roll out a new Image for existing computers.

The rules governing the donation of decommissioned IT equipment can be found via the following [link](#).

(\*) Contrary to the general rule that stipulates that the beneficiary has to be registered in an EU Member State, the beneficiaries of IT equipment from external offices can be local non-profit organisations.

The Institute renewed in 2017, for a period of three years, its partnership with Close the Gap which takes used IT equipment to African schools helping young people in the countries concerned to improve their educational and economic prospects. Since the first contract with Close the Gap was signed in August 2014, the EIB has donated more than 2 000 pieces of IT equipment to the organisation.
